## Introduction

MemberCentric is a mobile version of the Audiology Community that is created by Higher Logic. It allows members to browse the Audiology Community on the go via mobile device.

## How to Download

To download, search for MemberCentric in the App Store or in Google Play. Then search and select the Audiology Community once the MemberCentric App is installed on the mobile device.

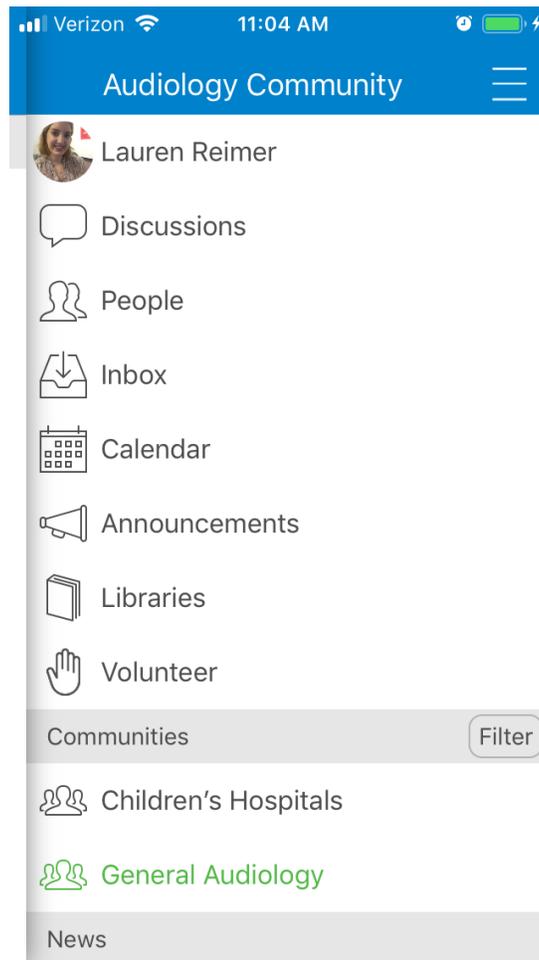

## How to Use it

Open the app and log-in with the same Academy username and password used for the Audiology Community. Below is what the icon of the app looks like once it is downloaded onto a mobile device. The Audiology Community logo is the icon.

## Home Page

The home page is the main menu of the app which can be accessed by tapping on the three horizontal lines on the top right-hand side of the screen. Specific areas of the app can be accessed here, including discussions, connections, message inbox, calendar, volunteer opportunities, and so on.

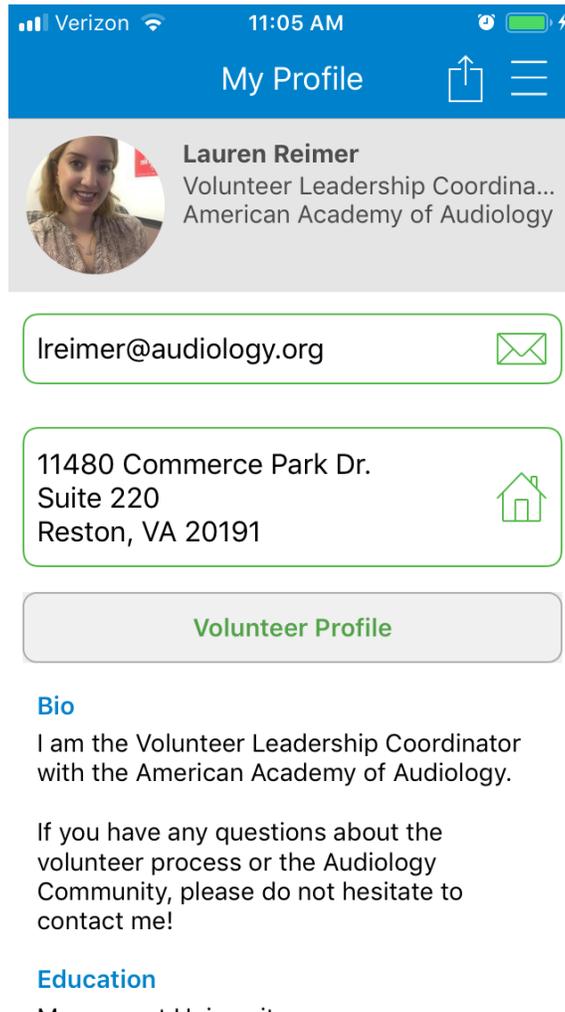

## Member Profile

Tap on the name or photo of to access the member profiles.

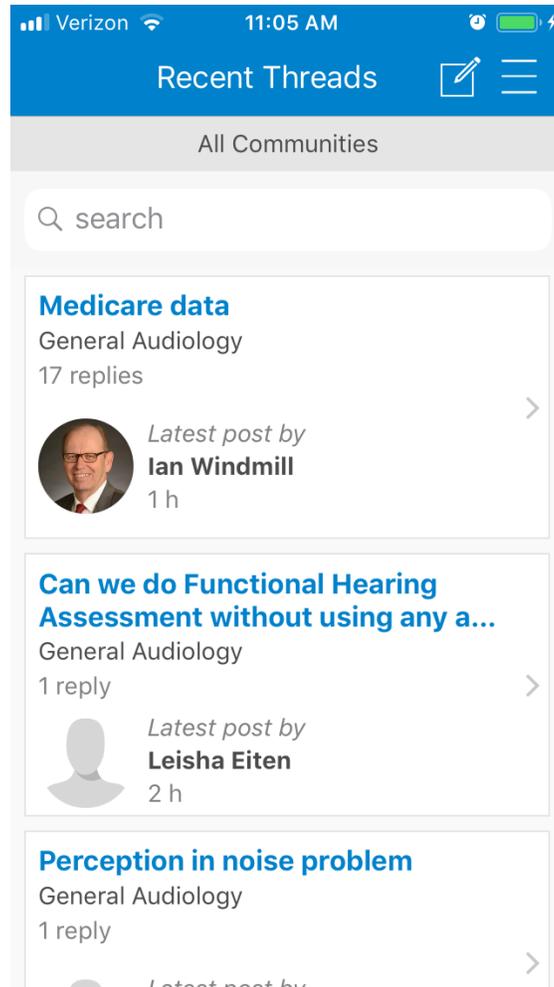

Below is an example of what a member profile looks like via the app. All fields of the profile can be edited, including but not limited to, adding a profile picture, edit email address, mailing address, bio, and education history.

The volunteer profile can be accessed from this page as well as.

## Discussion Threads

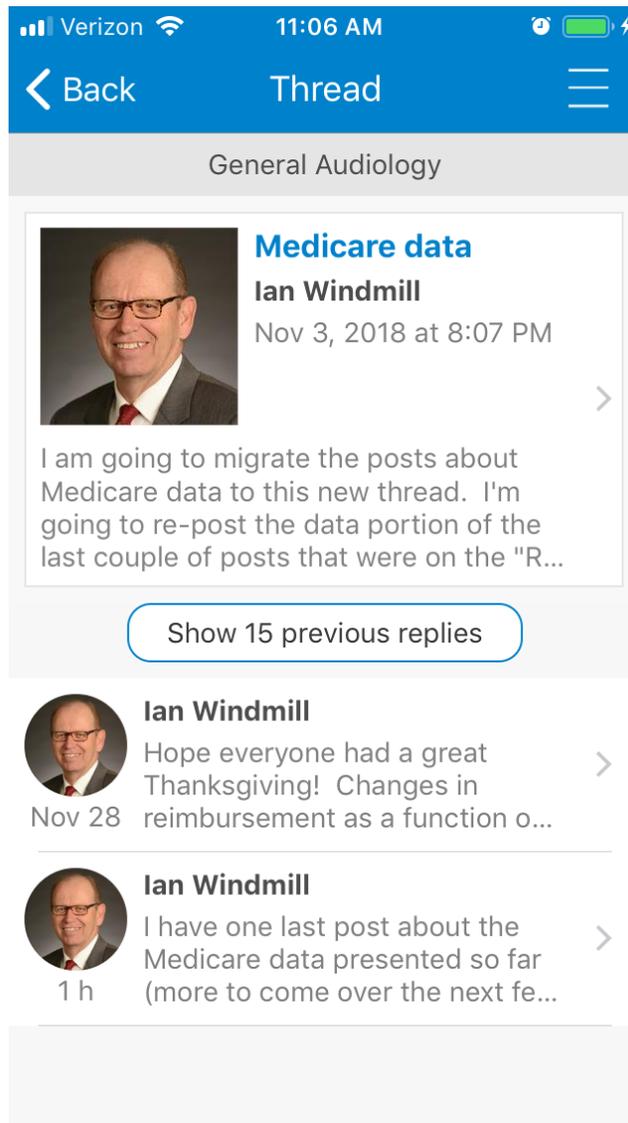

After tapping on “Discussions” from the main menu, a summary of all communities’ discussion threads is displayed. See the example below.

## Specific Discussion Threads

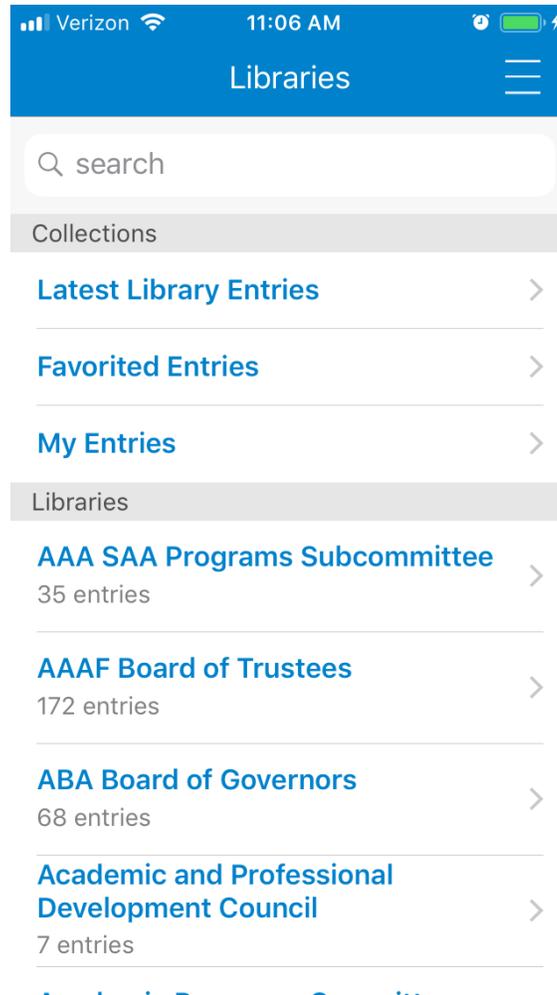

When a specific thread is selected, per the example below, the following page displays the main thread at the top and the replies compressed underneath.

To see the full text of either the original post or replies, tap on the desired entry. The content opens in a new page where a reply to the discussion thread can be created.

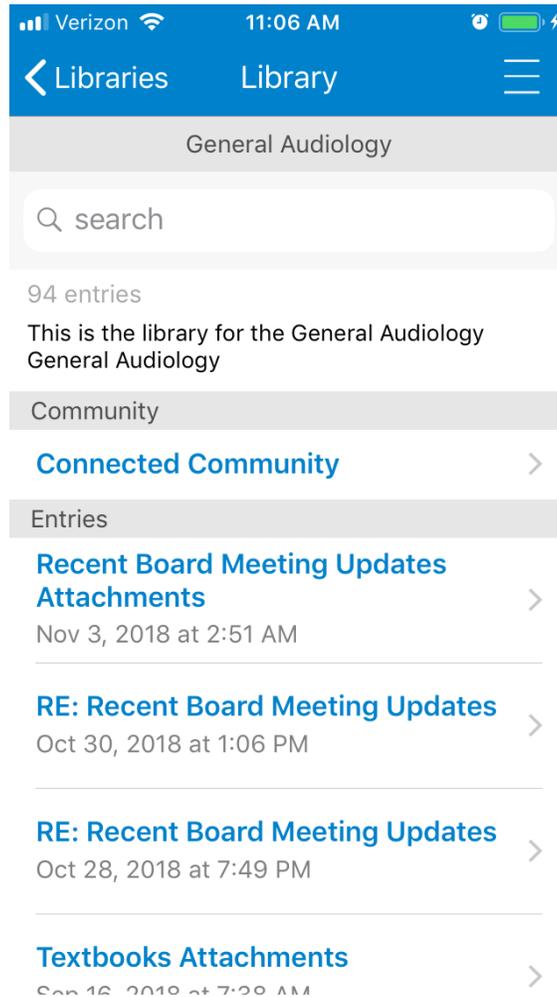

## Library

The Library page gives access to view the latest library entries, favorited library entries, or libraries of specific communities.

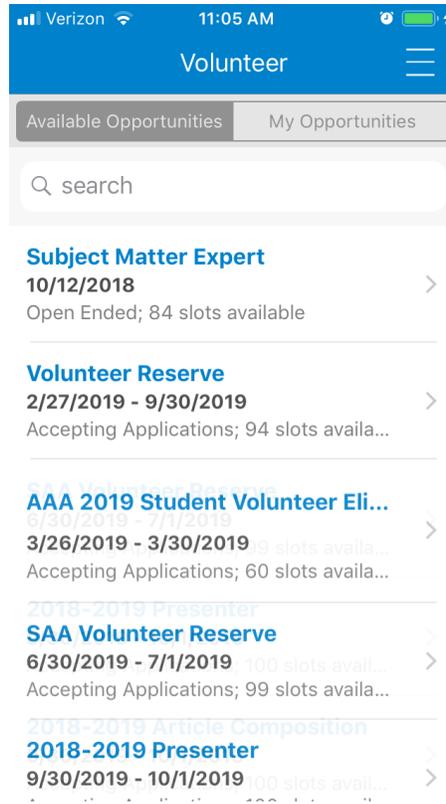

## Specific Libraries

Most communities have libraries to store documents and other resources to be shared with other community members. Using the General Audiology Community as an example (see below), a resource can be accessed by tapping on the title. The next page provides an area to view, download, or comment on the selected resource.

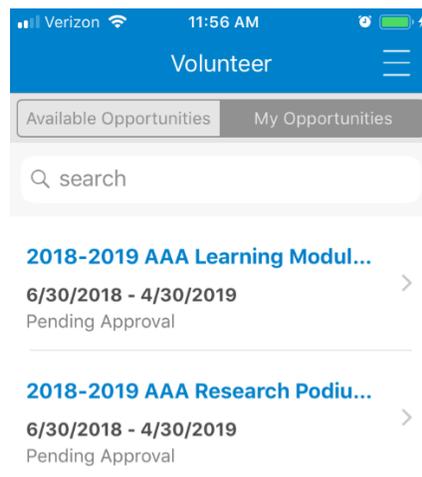

## Volunteer Opportunities

Applying to volunteer opportunities is made easier through the Audiology Community App. Browse volunteer opportunities and apply through the app by selecting the title of the opportunity.

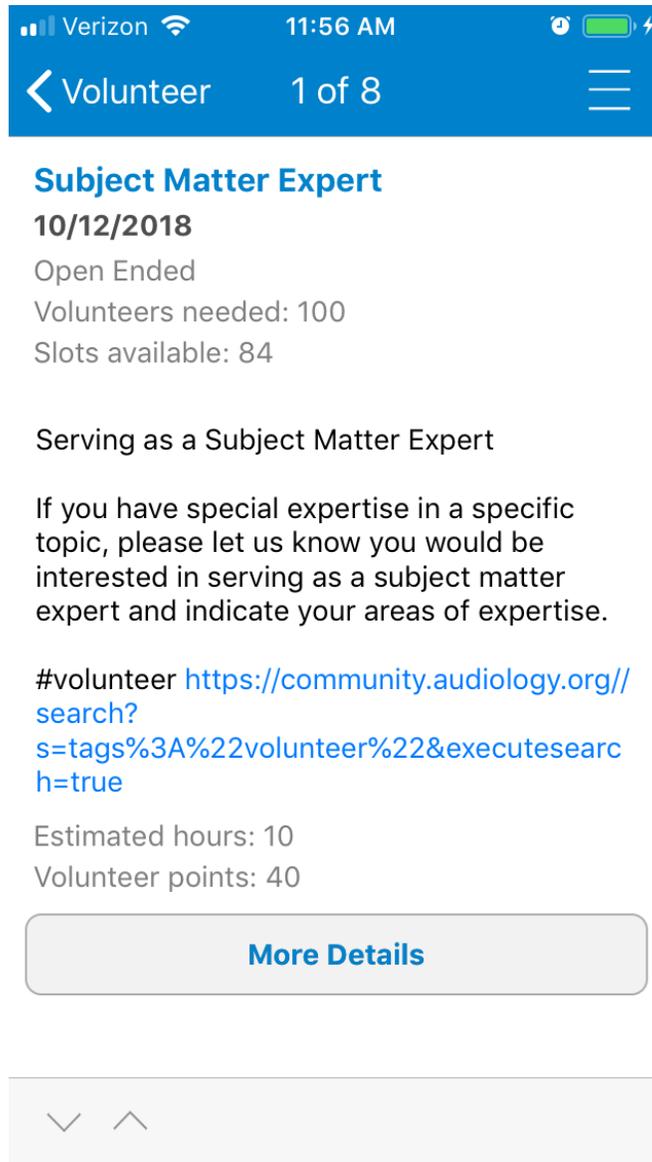

The “My Opportunities” section shows which volunteer opportunities have been applied to and the status of the application.

## Individual Volunteer Opportunity

After selecting a volunteer opportunity, the description page appears. Tap the “More Details” button to access the application.

The screenshot shows a mobile application interface. At the top, there is a blue header bar with a back arrow, the word "Volunteer", "1 of 8", and a menu icon. Below the header, the main content area has a white background. The title "Subject Matter Expert" is in bold blue text, followed by the date "10/12/2018" in bold black text. Below that, it says "Open Ended", "Volunteers needed: 100", and "Slots available: 84". A section titled "Serving as a Subject Matter Expert" contains a paragraph of text. Below the text is a blue hashtag "#volunteer" followed by a URL. At the bottom of the main content area, there are two lines of text: "Estimated hours: 10" and "Volunteer points: 40". A large, light gray button with rounded corners and the text "More Details" in blue is centered below the text. At the very bottom of the screen, there is a light gray bar with two small gray arrows, one pointing down and one pointing up.
